Camp 2020 Safety Precautions

- No more than 10 students per camp

- Parents/guardians will be asked to sign a COVID-19 health screening questionnaire when dropping their child off for camp.
  - You are affirming that your child is healthy and has not come into contact with coronavirus.
  - Each day you return you are affirming none of the answers to the questions have changed.
  - If any of the answers in the questionnaire change, you are asked to keep your child home and notify us they will not be attending the camp.
  - These forms are confidential and will be archived in a secure location by the Director of Education.
  - At this time Roberson will not be conducting temperature screenings but may do so in the future.

- Students and educators are required to wear masks at all times. We will be taking breaks throughout the day to go outside and remove masks away from each other to get fresh air.

- Everyone must wash their hands often with soap and warm water for at least 20 seconds. Especially after using the restroom, before eating, when they are dirty, and after blowing your nose, coughing, or sneezing.

- Educators will maintain a daily cleaning and disinfecting log. All surfaces used by students including tables, chairs, and equipment will be included.

- We will be maintaining social distancing (6 feet) practices.

- Students will not share any supplies or materials.

- We will hold as many activities as possible outdoors.

- Shared games and toys will not be provided for before and after care. Children attending before and/or after care may bring their own toy, game, or book if they would like. Roberson is not responsible for these items.
